## Profile

Full Stack MERN Stack Developer passionate about designing and maintaining highly scalable web applications. With hands-on experience in over 10 international-level projects, I bring a strong understanding of both front-end and back-end development. Continuously learning and building tools that enhance developer productivity, performance, and UI/UX.

---

## Experience

### Full Stack Developer

*DevHouse – Faisalabad, Pakistan*

*2024 – Present*

- Built full-stack applications using MERN Stack, Next.js, and other modern web technologies.
- Collaborated closely with teams to deliver optimized and scalable digital solutions.
- Followed Agile methodologies and contributed to product planning and deployment.

### Key Projects:

-  [Event Gateway](#)
  - Event management platform using **Next.js**.
  - Implemented event listing, filtering, and admin dashboard.
  - Learned SSR/ISR and optimized routing in Next.js.
-  [Becomy](#)
  - SaaS eCommerce application developed in **Ruby on Rails**.
  - Contributed to product page, checkout flow, and admin modules.
  - Improved full-stack integration and database queries.

-  [Trace3D Studio](#)
    - AR/VR-based CMS with **React** frontend.
    - Worked on interactive UI components and dynamic content rendering.
    - Learned advanced React patterns and 3D embedding techniques.
  -  [DevHouse Website](#)
    - Official company website built with **Next.js** (full-stack).
    - Handled responsive design, page routing, and CMS integration.
- 

## Frontend Developer (Remote)

*SaltShore – Remote*

2024

- Designed and built the official company website showcasing Himalayan salt products.
- Worked closely with the marketing team for UX feedback and product visual presentation.
- Improved SEO performance and mobile responsiveness.

 [SaltShore Website](#)

---

## Freelance Frontend Developer

*Client via Fiverr – Findonic*

2024

- Built the frontend for [Findonic](#), a **job-hunting platform**.
  - Developed responsive landing pages, job listing UI, and user interaction flows.
  - Communicated with client remotely and delivered on time with high satisfaction.
- 

## Education

### BS in Computer Science

*2024 – Present*

(Currently pursuing)

### Intermediate in Computer Science

*2022 – 2024*

---

## Technical Skills

- **Languages:** JavaScript, HTML5, CSS3, Node.js, Ruby
  - **Frontend:** React, Next.js, Tailwind CSS
