📍 DevHouse

ABOUT

Full-stack developer passionate about creating intelligent, user-centric digital experiences. With expertise in modern web technologies and Gen AI integration, I bridge the gap between design excellence and technical precision. Currently leading development at DevHouse while building a creative agency focused on AI-powered solutions. My work spans from scalable backend systems to pixel-perfect frontends.

EXPERIENCE

Senior Full-Stack Developer (Remote)

2025 – Present

eSynergy Solutions Inc

Currently building robust backend solutions at eSynergy Solutions Inc. using NestJS. Focused on designing clean REST APIs, implementing microservices, and managing PostgreSQL databases efficiently. Ensuring secure, high-performance services with TypeScript and JWT authentication to power our applications.

NestJS TypeScript PostgreSQL JWT Authentication System Design

Redis Queues Microservices

Senior Full-Stack Developer

2024 – Present

DevHouse

Leading development of scalable web applications, mentoring junior developers, and implementing Gen AI solutions for enterprise clients.

Next.js TypeScript AI Integration Team Leadership

Full-Stack Developer & UI/UX Designer

2023 – 2024

Freelance / TechAhmed

Developed custom web solutions for diverse clients, from e-commerce platforms to SaaS applications, with emphasis on user experience and web performance.
